DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims all contain reference numerals that are not in parentheses and therefore the reference numerals must be read as part of the structural elements for a proper understanding of the claim.

There is no antecedent basis for "rim comprising", "the diameter of the circle on which the axially inner end", and "the side opposite to the second rim seat" in claim 1. It is also unclear as to what is meant by "a one-piece wheel rim J, rim comprising" also in claim 1.

It is also unclear as to what "a slider" is as there is no description or showing of such a structure (claim 6).

In claim 10, it is unclear how the stop roller 44 can be said to be "disposed in the direction B" as it is coaxial with the axis A.

Further, in claim 11 the axis of rotation of the roller 4 is claimed as "parallel to said axis A", however as stated above it is coaxial.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 5, 7 and 9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by any of Schultz et. al., Jacobson, Duquesne, Gaither, Ewald, Tran (134) r Tran (661).

5. Claim 8 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Schultz et. al..

6. The remaining prior art is cited only as of interest at this time.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James G. Smith whose telephone number is 703-308-1746. The examiner can normally be reached on M-Th (7:05- 4:35) Fri. off.
